

Commodity Price Monitoring Brief

Central Bank Training Simulation

Audience: Executive Committee, Markets, and Research

Reporting cycle: 2026-06 | Analysis year: 2026

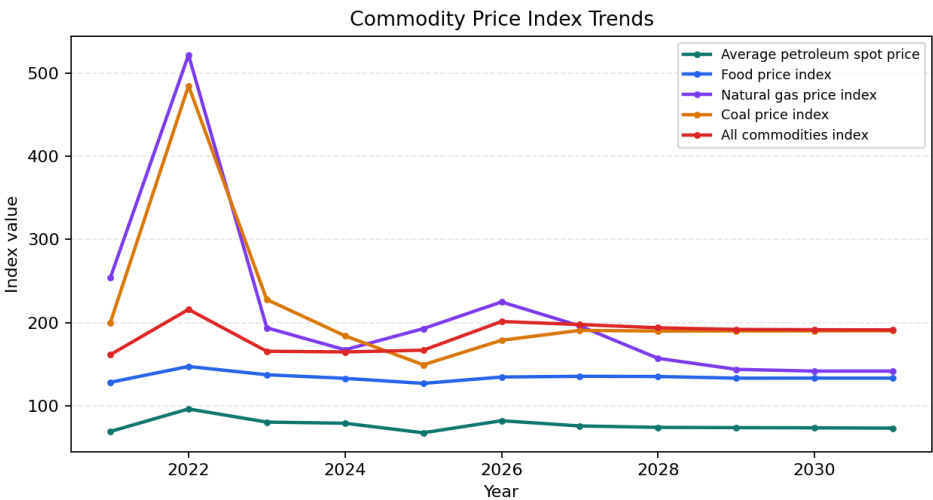

Data source: T-SQL from m6.WEOCommodityIndicatorLong

WEO publication date: 2026-04-14T13:00:00Z

Executive Summary

- Oil price index movement from 2025 to 2026: 21.4%.
- Food price index movement from 2025 to 2026: 6.0%.
- Commodity trends are included because imported inflation and reserves management are sensitive to global price shocks.

Commodity Price Index Trends

Latest Commodity Movements
